Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The inventor (A. Johnson) provided an over view of his invention and the difference between the auction and invention with attributes having intrinsic qualities and extrinsic qualities of transaction. Examiner explained the rejection based on prior arts and outstanding claims with broades reasonable interpretation of the claims. Inventor/Attorney agreed to amend the claims to bring allowable subject matter into the independent claims which distinguishes the invention from prior art/practices within confinement of original disclosure. New new matter will be added. Applicant's attorney (Brian Gomez Reg. #44,718) will file a formal response to office action, additionally, the claims will be clearly written to avoide USC 112/USC 101 rejecions.
